SKILLS

Technical Skills	Object-Oriented Programming, Data Structures, Algorithms, and Full-Stack Development
Soft Skills	Good Communication, Problem Solver, Critical Thinker, Team Player, and Detail-Oriented
Technologies	React, Express, Node, MySQL, JavaScript, HTML, CSS, Git, GitHub, and VS Code

EXPERIENCE

Software Development	Mar 2024 - Aug 2024
Bay Valley Tech	Modesto, CA

- Collaborated with a team of 11 members to develop a text-based social media platform with React.
- Designed and implemented the mobile and desktop user interface, ensuring optimal user experience and accessibility.
- Developed multiple pages for the platform using React components and implemented React Router for scalable navigation.
- Participated in agile development processes, including sprint planning, daily stand-ups, and code reviews.
- Assisted in debugging and troubleshooting issues across front-end components.

PROJECTS

Text Messaging App	2024
--------------------	------

- Collaborated with a team of 10 developers to build a full-stack text-based social media platform using React, MongoDB, Node.js, Express, and MySQL.
- Designed and implemented responsive navigation bar, routing, and search components using React.
- Debugged and troubleshoot issues across front-end components.
- Utilized Git for version control and collaborated with back-end team to integrate API endpoints.

Personal Portfolio Website	2024
----------------------------	------

- Developed a responsive personal portfolio website with a custom domain and contact form.
- Implemented email functionality using a server-side script to send form submissions to personal email.
- Utilized HTML, CSS (Bulma), and JavaScript for front-end development.
- Deployed the website using a hosting service (GitHub and Vercel).

Ecommerce Store	2024
-----------------	------

- Built a weather application using React, fetching data from a third-party API.
- Implemented features like geolocation, search functionality, and displaying current weather conditions.
- Utilized React hooks and components for efficient state management and rendering.
- Styled the application using vanilla CSS for responsive design.

EDUCATION

Bay Valley Tech	2023 - 2024
Computer Programming	Modesto, CA

- Completed courses in Full-Stack Web Development, covering technologies like React, Node.js, Express, MySQL, JavaScript, Git, and Agile Scrum methodology.
- Earned certifications in HTML, Responsive CSS, Content Management Systems, JavaScript, and Asynchronous JavaScript.
- Completed additional courses on FreeCodeCamp (Responsive Web Design), Khan Academy (JavaScript), and Udemy (React).
